RELIVE N1 '25

RELIVE

Description

With a modern two-tone body design, the Relive N1 electric model comes with a variety of interior colors. Equipped with ABS, EBD, EPS, HAC, BOS brake priority system and electronic safety systems, it will help reduce and prevent accidents.

Remote control, efficient air conditioning system, electric rearview mirror adjustment and other user-vehicle interfaces make driving more comfortable.

Intelligent tire pressure monitoring, front and rear parking radar, automatic collision unlocking and other configurations contribute to added safety.

The 10.25-inch dual smart screen, smooth and high-definition, offers a series of functions such as mobile connection, radio, Bluetooth, 360 panoramic view, so that driving becomes more fun.

New modern interior design

Powerful body
Spacious interior design
Many comfortable configurations
The largest 10.25-inch dual smart screens in the class.

Technical characteristics:

3-door and 2-seat structure
Dimensions (mm) 3162*1498*1580
Wheelbase (mm) 2050
Front/rear distance (mm) 1290/1290
Weight 740 kg
Front suspension McPherson independent
Rear suspension Semi-independent with pull handle
Brake Disc/Drum
Tires 155/65 R13

Battery type
Lithium iron phosphate battery (BMS)
Battery capacity (kWh) 13.7
Voltage (V) 102.4
Maximum speed (km/h) 90
Climb angle (%) $\geq 20\%$
Distance (KM) 170
Engine type - PMS engine
Power 17.7 HP

Warranty content:

2 years or 30,000 km (whichever comes first)

Battery - 5 years or 60,000 km

GENERAL

Matriculate: Da

Year: 2025

Colors: Alb, Gri, Albastru

ENGINE

Power: 17.7 HP

Fuel: Electric

Ignition: Electric

Max speed: 90 KM/H

DIMENSIONS

Length: 3162 mm

Width: 1498 mm

Height: 1580 mm

Curb weight: 740 KG

MECHANICS

Front suspension system: independent MacPherson

Front tyre: 155/65 R13

Rear tyre: 155/65 R13
